TECHNICAL SKILLS

- SQL
- Python
- R
- Excel / Sheets
- Tableau
- Power BI
- PostgreSQL
- AI Prompt Engineering
- Data Pipeline Design
- Process Mapping
- Root Cause Analysis
- Cross-Functional Reporting
- Stakeholder Presentations
- Workflow Automation
- Data Validation

EDUCATION

Master of Business Administration (MBA)

Guilford College, Greensboro, NC

Aug 2024 – Aug 2025 · GPA: 3.73/4.0 · Dean's List (All Semesters)

Bachelor of Science, Analytics (Business Minor)

Guilford College, Greensboro, NC

Aug 2021 – May 2024 · GPA: 3.84/4.0 · Dean's List (All Semesters)

LEADERSHIP & HONORS

Guilford College Golf Team & Student-Athlete Advisory Committee · 2021–2025

3× NCAA DIII All-America Scholar · PING All-American Honorable Mention (2024–25) · ODAC / VA Farm Bureau Scholar Athlete of the Year (2024–25) · All-ODAC First Team (2024–25) · 4× All-Academic ODAC Team · All-ODAC Second Team (2022–23) · English Athletic Leadership Award, Guilford (2025) · ODAC Sportsmanship Team (2023–24)

EXPERIENCE

AI Domain Expert (Independent Contractor) · Mercor Intelligence

May 2026 – Present

- Providing specialized domain expertise to evaluate and improve the reasoning, accuracy, and output quality of foundation models for top-tier AI labs.
- Operating under strict non-disclosure agreements (NDA) while contributing to the training pipelines and advanced capabilities of next-generation LLMs.

Founder & AI Systems Developer · Via Vera (Independent)

Sept 2025 – Present

- Designed and launched a multi-tenant SaaS platform enabling service businesses to automate bookings via an AI-driven SMS agent, reducing missed leads and eliminating manual scheduling overhead.
- Architected a Python/FastAPI backend with PostgreSQL, Twilio SMS, and Stripe payment processing, deployed to production with live clients across multiple service verticals.
- Applied analytical rigor to product decisions, pricing strategy, and business intelligence — iterating on data from real client usage to improve conversion and retention.

Professional Tour Caddie · Independent

May 2025 – Present

- On-course strategic partner for a professional golfer, synthesizing real-time course conditions, historical scoring data, and situational variables to inform high-stakes decisions under pressure.
- Developed analytical frameworks for shot selection using shot dispersion data, wind modeling, and course mapping to support data-driven in-round strategy.

Data Analyst · IronPlate Solutions

May 2025 – Sept 2025

- Designed, implemented, and maintained data pipelines to generate actionable insights on supply chain characteristics, pricing dynamics, and design component trends based on stakeholder requirements.
- Built scalable spreadsheet architecture using relational database principles, enabling seamless future migration to a formal database solution.
- Leveraged Python (pandas, openpyxl) to automate data entry, visualization, and executive reporting — reducing manual processing time by ~70%.
- Communicated findings clearly to both technical and non-technical stakeholders, directly influencing strategic decisions and pricing benchmarks.

Quality Control Analyst · DraftKings / Scouting Heroes

July 2024 – May 2025

- Monitored and validated live performance metrics across multiple concurrent games to ensure accuracy and integrity throughout real-time data pipelines.
- Managed large-scale datasets and executed quality assurance testing to influence pricing characteristics and reduce downstream error rates.
- Collaborated cross-functionally with traders and operations teams, communicating complex data issues rapidly in high-stakes, time-sensitive environments.

Data Analytics Process Improvement Intern · Guilford College

Aug 2023 – May 2024

- Analyzed multi-year recruitment pipelines and enrollment data to identify inefficiencies in admissions outreach, applicant conversion, and student retention.
- Developed Tableau dashboards and SQL queries to visualize funnel trends and surface the two stages responsible for 68% of prospect drop-off.
- Presented findings to the Board of Trustees and senior leadership; recommendations led to adopted changes in recruitment strategies across three departments.
- Collaborated cross-functionally with admissions, financial aid, and student success teams to validate data assumptions and co-create implementation plans.
