TECHNICAL SKILLS

- SQL
- Python
- R
- Excel / Sheets
- Tableau
- Power BI
- PostgreSQL
- AI Prompt Engineering
- Data Pipeline Design
- Process Mapping
- Root Cause Analysis
- Cross-Functional Reporting
- Stakeholder Presentations
- Workflow Automation
- Data Validation

EDUCATION

Master of Business Administration (MBA)

Guilford College, Greensboro, NC

Aug 2024 – Aug 2025 · GPA: 3.73/4.0 · Dean's List (All Semesters)

Bachelor of Science, Analytics (Business Minor)

Guilford College, Greensboro, NC

Aug 2021 – May 2024 · GPA: 3.84/4.0 · Dean's List (All Semesters)

LEADERSHIP & HONORS

Guilford College Golf Team & Student-Athlete Advisory Committee · 2021–2025

3× NCAA DIII All-America Scholar · PING All-American Honorable Mention (2024–25) ·
ODAC / VA Farm Bureau Scholar Athlete of the Year (2024–25) · All-ODAC First Team (2024–25) · 4× All-Academic ODAC Team ·
All-ODAC Second Team (2022–23) · English Athletic Leadership Award, Guilford (2025) · ODAC Sportsmanship Team (2023–24)

EXPERIENCE

AI Domain Expert (Independent Contractor) · Mercor Intelligence

May 2026 – Present

- Providing specialized domain expertise to evaluate and improve the reasoning, accuracy, and output quality of foundation models for top-tier AI labs.
- Operating under strict non-disclosure agreements (NDA) while contributing to the training pipelines and advanced capabilities of next-generation LLMs.

Founder & AI Systems Developer · Via Vera (Independent)

Sept 2025 – Present

- Interacted with external counterparties and internal stakeholders to gather business requirements, translating needs into scalable technical solutions and API integrations.
- Architected automated payment processing pipelines (Stripe/API) using Python and PostgreSQL, monitoring incoming cash flows to ensure obligations were met.
- Designed business intelligence dashboards and executed advanced SQL queries to monitor KPIs, participating in process improvement initiatives to mitigate operational risk.
- Demonstrated strong problem-solving skills, delivering a SaaS platform that managed post-transaction processes, automated bookings, and improved client revenue streams.

Professional Tour Caddie · Independent

May 2025 – Present

- On-course strategic partner for a professional golfer, acting as a team player to synthesize real-time variables and mitigate operational and environmental risk under immense pressure.
- Developed analytical frameworks using historical scoring data and course mapping, ensuring precise decision-making and adhering to strict time-based constraints in a dynamic environment.

Data Analyst · IronPlate Solutions

May 2025 – Sept 2025

- Collaborated with internal partners and stakeholders to gather and document business requirements, directly influencing strategic decisions and pricing benchmarks.
- Designed ETL data integration and Python automation pipelines, utilizing SQL to validate large-scale data and reduce manual processing time by ~70%.
- Prototyped Tableau reports and built scalable Excel models (pivot tables, filters, formulas), identifying and resolving data discrepancies prior to Data Warehouse migration.
- Communicated complex data findings clearly to technical and non-technical teams, supporting control enhancements and process improvement initiatives.

Quality Control Analyst · DraftKings / Scouting Heroes

July 2024 – May 2025

- Operated in a fast-paced, dynamic environment, utilizing Excel to monitor and perform validation on live data pipelines, ensuring the accuracy and integrity of metrics.
- Investigated and resolved data breaks, discrepancies, and unmatched inputs promptly, executing SQL data extraction to mitigate risk and reduce downstream error rates.
- Communicated professionally with cross-functional teams to resolve complex data issues rapidly, adhering to strict cut-off times and maintaining compliance with internal frameworks.

Data Analytics Process Improvement Intern · Guilford College

Aug 2023 – May 2024

- Extracted and analyzed multi-year enrollment data using advanced SQL queries, identifying process inefficiencies and supporting control enhancements in outreach strategies.
- Designed and prototyped BI reports (Tableau, Power BI) to test data models, visualizing funnel trends that surfaced the stages responsible for 68% of drop-off.
- Communicated findings professionally to senior leadership, successfully gathering requirements to co-create cross-departmental implementation plans.

- Interacted closely with internal stakeholders to validate data assumptions and resolve discrepancies, demonstrating strong attention to detail and a problem-solving mindset.
